📧 rishitay23@gmail.com | 📍 Remote

Education

B.Tech in Computer Science Engineering
St. Andrews Institute of Technology and Management
2023 – Present | Currently in 2nd Year

Technical Skills

• Frontend: HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS
• Backend: PHP (basic)
• Tools & Platforms: Git, GitHub, VS Code, Canva
• Other: Responsive Design, Web Hosting

Projects

🎧 Spotify Clone
Built a responsive clone of Spotify using HTML, CSS, and JavaScript featuring playlist UI, audio controls, and media layout.

🛒 Amazon Clone Website
Developed a visually appealing homepage of Amazon with product cards, navbar, and footer. Used Tailwind for responsiveness.

🌐 Custom Designed Website (PHP)
A full-stack styled personal project where I designed and developed a feature-rich site using PHP for backend integration.
(More projects available on GitHub)

Achievements & Activities

• Participated in Microsoft x GeekRoom Hackathon (2024)
• Selected as a Contributor in GirlScript Summer of Code 2024
• Completed Google Arcade Facilitator Program (AI/Cloud Focused)
• Maintains an active GitHub profile with multiple frontend and full-stack projects
• Shares tech learnings and hackathon experiences regularly on LinkedIn

Objective

Frontend developer (B.Tech CSE) seeking remote internship to apply and enhance skills in real-world projects.

Awards & Recognition

🏆 University Topper at Maharshi Dayanand University (MDU)
🏅 Recognized for academic excellence and consistent high performance
